PROFILE

UX/UI designer with a nursing background seeking a healthcare-centered design position. I have a passion for making complicated systems easier to navigate and more accessible for a wider population.

EXPERIENCE

CVICU Registered Nurse
Children's Hospital | Omaha, NE | 01/2019-01/2020

- Gathered patient information to present daily patient updates to medical team.
- Guided and taught five nurses as a preceptor.
- Worked collaboratively with multidisciplinary medical team.

Emergency Room Registered Nurse
UCLA Medical Center | Los Angeles, CA | 01/2018-12/2018

- Recognized patient decline and led multiple cardiac and respiratory arrests on patients and was able to stay calm and delegate tasks to team members for better patient outcomes.
- Educated patients on health-related practices and arranged follow-up appointments for after discharge to decrease return to ER for same problems.

Travel Emergency Room Registered Nurse
TaleMed | Varied Locations | 06/2017-12/2017

- Worked collaboratively with the ER team after only two days of training.
- Volunteered extra time to relieve overworked nurses to support fellow staff and have better patient care.

Emergency Room Registered Nurse
Baylor St. Luke's Hospital | Houston, TX | 01/2016-06/2017

- Worked closely with ER doctors and intensivists to provide patient care and monitor patient status.
- Took on multiple roles and learned several new skill sets due to working overnight and decreased resources.

PCU Registered Nurse
Baylor St. Luke's Hospital | Houston, TX | 10/2014-12/2015

- Researched and presented on silver-catheters to nurse manager, which reduced infections and hospitals stays.
- Was involved in nursing committee to research and collect input from fellow nurses to improve work experience and nurse retention.

EDUCATION

Certificate in UX Design with Specialty in UI Design and Front-End Development
CareerFoundry | 2020

Bachelor of Science in Nursing
University of Nebraska Medical Center | 2014
